Fight out in the parking lot. Another Bouncer and I went outside to check on it, But it was just Tami "wrestling" with Casey to get off the ground. Casey was combative with everyone, I noticed her purse was laying in the lot with items out of it I kinda swept items back in and helped her up and handed her, her purse. At that point she swung at me so I backed up and asked her if she was ok and told her to calm Down. Tami took the purse to the car I believe. after asking her (Casey) to calm Down she said "What the "F" Do you want and "F" you and "F" this I'm walking!" I started back toward the building noticed the car was being pulled around in the direction she was walking I Assume for light Tami was following Casey Trying to get her back to the car. The last thing I saw before returning
